

Statement of Values

Our Mission is to enrich and enhance mathematical education in Ireland. Our Vision is of a vibrant community capable of enabling and supporting all youth who wish to engage in extra-curricular mathematical activities, and to participate in mathematical competitions. We seek to achieve these while upholding the following Values.

Fairness

- We treat all members, stakeholders, and public fairly, honestly and impartially.
- We apply our procedures consistently.

Openness

- We are open and transparent in our work.
- We make information available about our activities.

Cooperation

- Our activities are based on sharing responsibilities among members and volunteers taking into account their time resources, commitment and expertise.
- We listen to and treat our members, volunteers and stakeholders with respect.

Advancement of Excellence

- We support and encourage each student to reach their own potential.
- Our activities with students reward high performance in learning and problem-solving.

Engagement

- We communicate with and listen to our stakeholders.
- We seek to address issues of concern to them.

Independence

- We take decisions independently and in the public interest.
- We stand over our actions and decisions and take responsibility for them.
